Riser Stem Length:	0 - None 18 - 18" 30 - 30"	12 - 12" 24 - 24" 36 - 36"
Cap Finish:	BK - Black BZ - Bronze WT - White BG - Beige DB - Dark Bronze	BKT - Black Texture BZT - Bronze Texture SL - Silver CA - Clear Anodized NT - Natural

**ORDERING EXAMPLE:** MT - 2 - A - 12 - 12 - BZ

## DESIGN FEATURES:

Design features of our Model MT-2 Adjustable Mount offer improved performance when compared to the competition.

Our delrin bushing is 'T' shaped to prevent it from 'punching through' when the riser stem is adjusted.

In addition, the bottom set of allen screws are located 1/2" from the base of the mounting cap to keep them out of the soil thereby reducing the chance of corrosion and being filled with dirt.
